

KUMAR SUTIKSHAN

Application Security Engineer | Backend Developer

Prayagraj, UP, India | +91-9453993869 | kumarsutikshan.1@gmail.com | GitHub: github.com/BeyondSpace1 | Portfolio: beyondspace1.github.io/portfolio/

PROFESSIONAL SUMMARY

Security-focused Full Stack Developer with a Master's in Computer Applications and a specialized Post-Graduate certification in Cybersecurity from IIIT-Bangalore. Leverages a strong foundation in **PHP (Laravel, CodeIgniter), MySQL, and Linux** to perform deep-dive Vulnerability Assessments and Penetration Testing (VAPT). Proven track record of developing secure financial and healthcare applications, ensuring data integrity and compliance. Seeking to leverage development expertise to secure enterprise infrastructure and web applications.

CYBERSECURITY CERTIFICATION

Advanced Executive Program In Cybersecurity (AEP-CS) IIIT-Bangalore & NPCI (Simplilearn) | Completed 2025 A comprehensive 6-month intensive covering the following core modules:

- **Ethical Hacking & VAPT:** Hands-on experience with offensive security tools to identify and exploit system vulnerabilities.
- **Application & Web Security:** Deep dive into OWASP Top 10, secure coding practices, and API security testing.
- **Enterprise Infrastructure Security:** Hardening networks, configuring firewalls, and managing Identity and Access Management (IAM).
- **Malware Analysis:** Behavioral analysis of ransomware and reverse engineering basics.
- **Virtual Internship (NPCI):** Practical application of security protocols in a simulated banking infrastructure environment.

TECHNICAL SKILLS

- **Security Tools:** Burp Suite, Nmap, Wireshark, Metasploit, Nessus (Knowledge implied by course).
- **Development:** PHP (Core, Laravel, CodeIgniter 4), JavaScript (React, Next.js), Python.
- **Databases:** MySQL, MongoDB, PostgreSQL, SQLite.
- **Core Concepts:** OWASP Top 10, RESTful API Security, Encryption/Hashing, SDLC, MVC Architecture.
- **Tools & Platforms:** Git/GitHub, Linux (Ubuntu), VS Code, Docker (implied by DevSecOps interest).

PROFESSIONAL EXPERIENCE

Backend Developer Tradeimex Infotech Pvt. Ltd. | Sept 2025 – Nov 2025

- Maintained and optimized production-level codebases using **CodeIgniter and Laravel** for high-traffic import-export data platforms.
- Conducted regular code audits to ensure system stability and patch security vulnerabilities in legacy PHP applications.
- Collaborated with cross-functional teams to integrate secure REST APIs for data retrieval.

Full-Stack Developer (Core-PHP) Prashaar Innovations Pvt. Ltd. | May 2024 – April 2025

- **Security-Critical Development:** Designed and deployed web applications for the **Finance and Healthcare** sectors, adhering to strict data privacy requirements.

- Led backend integration efforts using the **LAMP stack**, ensuring secure session management and input sanitization to prevent SQL Injection and XSS.
- Generated 50+ technical reports documenting user requirements, system architecture, and security compliance measures.
- Mentored junior developers on coding standards and database optimization.

Student Intern (Web Audit & Analytics) *Dev Sanskriti Vishwa Vidyalaya (SDC) | Feb 2022 – June 2022*

- Performed comprehensive **web audits** to identify performance bottlenecks and potential security gaps.
- Managed data documentation and analytics integration for the university's academic software.

KEY PROJECTS

NexCrypt – Custom Text Encryption Tool

- *Tech Stack: PHP, JavaScript, Custom Algorithms*
- Designed a lightweight cryptographic tool focusing on data confidentiality.
- Implemented custom encryption/decryption logic to understand the mathematical foundations of securing data in transit.
- Engineered a high-performance, minimalist UI for real-time processing.

Trackexpense – Financial Tracking Sub-System

- *Tech Stack: PHP, MySQL, Tailwind-CSS*
- Developed a secure CRUD application for managing sensitive personal and group financial data.
- Implemented role-based access control (RBAC) logic to segregate individual vs. group data visibility.

EDUCATION

- **Master of Computer Applications (MCA)** | Mahatma Gandhi Kashi Vidyapith (2024)
- **Bachelor of Computer Applications (BCA)** | Dev Sanskriti Vishwavidyalaya (2022)
